

Jayne Raper, Professor of Biological Sciences

Email: raper@genectr.hunter.cuny.edu
Office: 834 HN
Phone: (212) 396-6644
Lab: (212) 396 -6646

Lab Website: <http://raper.bioweb.hunter.cuny.edu>

Education:

- BSc, 1982, University of Newcastle Upon Tyne, UK.
- Ph.D., 1989, University of Cambridge, UK.
- Post Doc. 1989-1993 Johns Hopkins School of Medicine, Baltimore
- Post Doc 1993-1995 The de Duve Institute of International Cellular Pathology, Belgium.

Research Interest:

- **Trypanosome lytic factors, antimicrobial high density lipoproteins and their role in innate immunity**

Our laboratory works on trypanosome lytic factors (TLFs), which are antimicrobial high-density lipoproteins that contribute to primate innate immunity. TLFs are characterized by their ability to kill African trypanosomes, which are extracellular protozoon parasites. The unique protein components of TLF are hemoglobin binding protein, Haptoglobin-related protein (Hpr) and a pore forming protein, apolipoprotein L-I (apoL-I).
